

Mr Goh KH

HOD CCE

Mr. Lee Kuan Yew's vision on education emphasizes the importance of developing well-rounded individuals with mental strength, intellectual discipline, and a strong sense of social responsibility.

This holistic approach to education resonates with me, as it goes beyond mere academic excellence. I feel that the ideal student should possess qualities like humility, civic-mindedness, and a readiness to serve their community and nation. To achieve this, it is essential to foster critical thinking, problem-solving, and intellectual curiosity. Education should focus on training the mind to think, rather than just accumulating facts.

Encouraging volunteerism, empathy, and socio-emotional competencies will help students develop into resilient and compassionate individuals. By adopting this comprehensive approach, we can equip students with the skills, values, and knowledge needed to make a positive impact and lead fulfilling lives. It is my firm conviction that this will enable our next generation to drive Singapore's continued growth and progress.

Learners for Life. Leaders of Integrity. Contributors with Compassion.
